

# Not yet vaccinated?

## Contribute to science, and EARN \$\$\$

PreventCOVIDU is a National NIH funded research study taking place across the US to learn whether the Moderna COVID-19 vaccine can stop the spread of COVID-19.

By signing up, you can help answer some of the biggest questions for getting back to normal life.

- Is it safe not to wear a mask?
- Can I visit family members or friends safely?

We are looking for:

- Adults under 30 years old who have never had a known COVID infection
